

# CONDENSATE DRUM DRIP

## MODEL LVSND

**DESCRIPTION:**

The Condensate Drain is a fabricated drum drip for installation in dry pipe, Deluge and preaction automatic sprinkler systems. The condensate drain body is made from electric-resistance welded carbon or alloy steel mechanical tubing.

**FEATURES:**

- Ready to install
- No fabrication required
- Rated to 175 PSI
- 24 hour ice build-up test with no damage
- 600 PSI pressure tested
