MODULAR SEALS
MODEL LVLSMS

***Each seal is shipped as an individual component, and assembly is required to build the complete belt**

Material Specifications

Rating
Rated at 40 ft. of head pressure

MODEL "C"
For use in water and waste water, EPDM Rubber. Bolts and nuts are carbon steel, zinc dichromated with a proprietary corrosion inhibiting coating.

MODEL "S-316"
For chemical processing and waste water treatment, EPDM Rubber. Bolts and nuts are 316 Stainless Steel.

Product Overview

Modular Seals provide a method for permanently and hydrostatically sealing cylindrical objects of any size passing thru walls, floors, and ceilings. Designed for use as a permanent seal.

Engineered to resist aging and the effects of ozone, water, sunlight, and treatment plant chemicals.
